REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the claimed invention with the features of a number of elastic water absorption members radially disposed in an umbrella insertion opening with clearances of predetermined pitches between each water absorption member and arranged radially and a processing section of foundation owner recruitment displaying home page contents of foundation explanation and enterprise management of device for removing a water drop an umbrella with advertisement and foundation proposer recruitment is not found in the prior art either singly or in combination. The closest prior art reference with respect to the first independently claimed invention is considered Shishido (JP 2002 168562) which discloses umbrella insertion into elastically deformable water absorbers but not the independently claimed radially disposed openings of predetermined pitches and Kansei Corp. (JP 05 083687) which discloses an accordion tube wall structure in the field of endeavor encompassing umbrella dehydrators but not the independently claimed number of elastic water absorption members. The closest prior art reference with respect to the second independently claimed invention is considered Hinode Planning (JP 2003 016297) which is applicant's later filed foreign application. Examiner broadly and reasonably construes the independently claimed "elastic members" from the specification page 9 to be a pillar shaped elastic member with a triangle section made of foam material and variants thereof to form an inclined surface which is considered patentably unique in the filed of umbrella drying. Other prior art references cited with this action are considered to disclose one or more elements of the claimed

invention, but not the necessary motivation or combination suggestion to obviate the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
